

# Hurricane Lane

The current forecast has Lane southwest of Honolulu as a weakening hurricane on Friday. As the impacts from a hurricane extend well away from the center, associated heavy rains and high winds are expected to impact the island. Furthermore, there is the possibility that Oahu will face a direct hit, so residents of 1350 Ala Moana need to be prepared.

1. Remove all objects and furniture from your lanai.
2. Do not use elevators during the storm to avoid elevator entrapments.
3. Make sure your 14-day hurricane kit is fully stocked.

The best way to stay directly informed about the threat from Hurricane Hector is to download the city's smartphone messaging app, [HNL.info](https://www.hnl.info), which is also available as a website online.

Seal Masters, the company in charge of the painting and spall repairs, will be removing unsecured equipment, pulling up guy-lines, dismantling the covered walkway to the pool, and dismantling parts of the safety canopy in front of the building.
