

INTERIOR GARAGE REPAIR SCHEDULE - PERIMETER ONLY

On Monday, 03/11/19, Seal Masters will begin concrete repair work on the interior of the second-level garage. Repairs to this level will take approximately 3 months. Parking stalls will be rehabilitated in blocks of five, and each block will take five working days to complete. **WHILE YOUR STALL IS BEING REPAIRED, YOU WILL BE ASSIGNED A NEW STALL FOR FIVE WORKING DAYS. YOU WILL NOT BE ABLE TO ACCESS A STALL THAT IS UNDERGOING REPAIRS AT ANY TIME, EVEN AT NIGHT.** If your stall is on the perimeter of the second-level garage, please consult the above schedule to determine when the project will affect you.

Mahalo for your understanding.
