### RENOVATIONS

2102  
2806

5/06/19

## Hot Water Issues

One of the building's pressure reducing valves is malfunctioning. The valve, which regulates hot water pressure, has been bypassed; as a result, some units are receiving water that is too hot. Maintenance is aware of the problem.

The valve will be replaced on Tuesday, 05/07/19. Mahalo for your patience.

## No Smoking

There have been multiple complaints about cigarette smoke on the ewa side of the building. Please remember that 1350 Ala Moana is a no-smoking building.
