Swing Stage and Performance Test at 01 Stack

May 24, 2019

Dear **01 Stack** Residents and Owners,

On **Monday through Wednesday, June 17 through June 19, 2019**, Elite Railings and Windows will be conducting preparations and performance testing at Unit 2601, which will involve water cascading down the side of the building, affecting the 01 stack units.

The preparations and test will occur between the hours of 8:00AM – 4:30PM. Please keep your windows securely closed throughout the duration of this time frame.

There will also be a swing stage scaffold traveling up and down the side of the building. For your privacy, please keep your curtains and blinds closed during work hours.

Thank you for your cooperation and understanding during this very important project.

Sincerely,
Elite Railings & Windows
